# 3<sup>rd</sup> 2025 ENDOSURG ENDOSCOPY FOR THE SURGEONS

## **New Year Greetings from MGM's Centre of Excellence for Gastroenterology and Advanced Minimal Access Surgery!**

As we step into a new year, we reflect on the incredible strides that have been made in the field of surgery, particularly in minimally invasive techniques. With advancements in technology, we now have a broader armamentarium for managing surgical diseases, making it increasingly crucial to stay ahead in acquiring the latest skills and technologies to offer the best possible treatment options for our patients.

Endoscopy, which was originally used as a diagnostic tool for gastrointestinal issues, has significantly evolved into advanced therapeutic procedures such as Endoscopic Submucosal Dissection (ESD) and Peroral Endoscopic Myotomy (POEM). With the future promise of Artificial Intelligence (AI) and Robotic Surgery, we are confident that even more sophisticated and complex procedures will soon be possible using endoscopes.

In many parts of India, surgeons are the primary caregivers for abdominal cases, which means it is essential for them not only to master basic diagnostic endoscopy but also to gain proficiency in advanced therapeutic techniques. This will ensure that we are able to offer the most effective minimally invasive treatments, which patients now demand and expect.

The Association of Surgeons of India (ASI) is dedicated to enhancing the surgical skills of its members. One of its key missions is to promote and train surgeons in endoscopic surgical skills, and this conference aligns perfectly with that vision.

We are confident that this conference will be a milestone in advancing our collective expertise and will greatly contribute to the mission and vision of ASI. This is a unique opportunity for endoscopy training tailored specifically for surgeons, under the esteemed aegis of the Association of Surgeons of India.

On behalf of the organizing committee, we extend a warm and heartfelt welcome to all of you to be part of this extraordinary endoscopy event. We look forward to an enriching experience together!

**Dr. Pravin Suryawanshi**  
Organizing Chairman

**Dr. Bhaskar Musande**  
Organising Secretary

**Dr. Rajendra M. Shinde**  
Treasurer

# TRADE LAYOUT

## Chh. Sambhajinagar is the Historic City

### ELLORA CAVES

Ellora is UNESCO World Heritage Site Located in the Chh. Sambhajinagar district of Maharashtra, India. It is one of the largest Rock-cut monastery temple cave complexes In the world, featuring Hindu, Buddhist and Jain monuments, and artwork, dating from The 600-1000 CE period.

### AJANTA CAVES

Buddhist rock-cut cave temples and monasteries, located near Ajanta village, north-central Maharashtra state, western India, are celebrated for their wall paintings. The temples are hollowed out of granite cliffs on the inner side of a 70-foot (20-metre) ravine in the Wagurna River valley 65 miles (105 km) northeast of Chh. Sambhajinagar, at a site of great scenic beauty. These paintings depict colourful Buddhist legends and divinities with an exuberance and vitality that is unsurpassed in Indian art. The caves were designated a UNESCO World Heritage site in 1983.

### DEVGIRI FORT

Daulatabad Fort, also known as Devgiri or Deogiri, is a historic fortified citadel located in Daultabad village near Chh. Sambhajinagar, Maharashtra, India. It was the capital of the Yadava dynasty, for a brief time the capital Of the Delhi Sultanate, and later a secondary Capital of the Ahmadnagar Sultanate.

### BIBI KA MAQBARA (DAKKAN TAJ MAHAL)

The Bibi Ka Maqbara is a tomb located in Chh. Sambhajinagar, Maharashtra, India. It was Commissioned in 1660 by the Mughal Emperor Aurangzeb in the memory of his First and chief wife Dilras Banu Begum and Is considered to be a symbol of Aurangzeb's conjugal fidelity.

### GHRISHNESHWAR TEMPLE

The is one of the 12 most important temples In India dedicated to Lord Shiva, which Makes it significant, and draws thousands of Pilgrims throughout the year.
